

BRAIN INJURY ASSOCIATION

OF AMERICA - CALIFORNIA

Statewide Community Councils

Overview

The Brain Injury Association of America – California Chapter (BIAA-CA)

Community Councils are volunteer-led leadership groups that serve as the local voice of BIAA throughout California. Each council brings BIAA's vision and strategic priorities to life by tailoring outreach, resources, and support to meet the unique needs of California's diverse communities. Community Council members contribute both lived and professional expertise, leveraging their talents, relationships, and local knowledge to strengthen services, expand awareness, and connect survivors, families, and professionals with valuable brain injury resources throughout California. They also foster connections among local, national, and international brain injury resources, colleagues, and peers, helping to build a stronger, more connected brain injury community.

Council

Purpose

Community Resource & Education

Expands access to resources and education by identifying needs, building partnerships, and connecting survivors, caregivers, and professionals with information, services, and educational opportunities.

Fundraising

Open doors and build relationships with individuals, companies, foundations, and community partners to grow financial support for BIAA-CA's mission, programs, and fundraising initiatives.

Advocacy

Advance public policy and systems change by identifying priorities, building relationships with policymakers and advocacy partners, and elevating the needs of Californians affected by brain injury.
